

# YOUR CONSTRUCTION SITE ESSENTIALS CHECKLIST

---

## Construction Site Offices and Furnishings

Before you can move to the construction site with confidence, you'll need:

- A mobile office with the necessary service connections
- Furniture, including desks, cabinets, chairs and other workstation essentials
- Ramps, steps, first aid kits and fire extinguishers

---

## Services and Utility Connections

Depending on your project, you may need:

- Mobile power generators to power your office, site lights and equipment throughout the site
- Potable water supplies and sewage handling systems
- Telecommunication and internet services

---

## Safety Systems and Signage

Double check that you have the following items available:

- Good lighting and fencing around the entire site with notices to ward off trespassers
- Designated storage and laydown areas for heavy equipment (which may require additional fencing)
- Security systems and CCTV cameras to protect your assets

---

## Storage Containers for all Tools and Equipment

For your construction site, consider the following:

- Locking storage containers
- Equipment registers for each storage container
- Overhead protection for site vehicles
- Dumpsters for construction waste
- Sanitation vehicles like honey-suckers for removing sewage from temporary storage tanks

---

## Dry Areas and Staff Amenities

Options available for your lunchrooms include:

- Folding tables and chairs
- Kitchen amenities like coffee makers, microwaves and refrigerators
- Lockers and wardrobes
- Entertainment systems like a flat-screen TV for rainy days
